In the workshop, the office and the area of the gas station 306 conventional fluorescent tubes were replaced with LUMiTENSO LED tubes.

LED tube	LUMiTENSO PRO 150 cm LUMiTENSO PRO 120 cm
Daily use	8 h
Weekly use	6 days
Electricity price	€0.15
Total effective life per year	2,503 h
Consumption neon tubes per year	48,130 kWh
Consumption LED per year	15,783 kWh
Energy costs neon tubes per year	€7,672.55
Energy costs LED per year	€2,516.02
CO ₂ saved by LED per year*	18,211 kg

*CO₂emissions from conventional electricity generation in Germany (563 g/kWh)

Over a period of 5 years total savings from LED amount to **€25,782.65.**

Managing Director Wolf-Dietrich Warncke about the benefits of the installed LUMiTENSO LED tubes: “We have the advantages of LED lighting in black and white now: Our electricity bill dropped about 12% in September. This month’s savings are around €500 and savings will be even higher in the coming winter months.”

LUMiTENSO LED tubes: Quality made in Germany
